

WORLD CHILDREN'S DAY

20th November

World Children's Day is an exciting day for everyone! It commemorates the day, when, in 1989, the **Convention on the Rights of the Child** was adopted by the United Nations. This important document has four key principles; a **right to survival and development**, protecting children's **best interests**, **non-discrimination** and respecting children's **views**.

Children who know their **rights** are more likely to **speak up** for themselves and others when their rights are violated or they witness injustice in daily life. So join us today to learn about **children's rights**, children of the **world**, and **global** issues facing children.
